# CALL FOR PROPOSALS

## 10<sup>th</sup> INTERNATIONAL CONFERENCE ON COLLEGE TEACHING AND LEARNING

April 14-17, 1999

Radisson Riverwalk and Jacksonville Hilton Hotels — Jacksonville, Florida

Teaching, Learning, and Technology: Innovation in a Global Learning Community

Keynote Presentations By:

• **Stephen Jay Gould**  
Harvard Biologist and  
President-Elect, American  
Association for the  
Advancement of Science

• **Carolynn Reid-Wallace**  
Former Senior Vice President,  
The Corporation for  
Public Broadcasting

• **Roger Schank**  
Director of the Institute  
for Learning Sciences,  
Northwestern University

*The premier international conference on higher education learning encourages 25 or 50 minute proposals on ...*

1. Innovative college teaching/learning strategies
2. Technology—especially the use of the Web, multimedia and virtual reality in learning

For conference announcement see <http://www.teachlearn.org> or contact:

Jack Chambers (904) 632-3231 — FAX: (904) 356-5681  
E-Mail: [jchamber@fccj.org](mailto:jchamber@fccj.org)

**SUBMISSION DEADLINE FOR PROPOSALS AND JURIED PAPERS: Dec. 1, 1998**

In Cooperation With

Florida Higher Education Consortium  
for Mathematics and Science

Simon & Schuster  
**Distributed Learning**  
One source... many solutions

Australian Journal of  
Educational Technology

ACM—The First Society  
in Computing

**BJET**

British Journal of  
Educational Technology

The Center for the Advancement of Teaching and Learning

**Florida Community  
College at Jacksonville**

FCCJ is an equal access/equal opportunity/affirmative action college.

Community College Week

## Editorial

---

This issue of the Australian Journal of Educational Technology offers articles on a range of instructional technologies and applications with discussions of a range of research and development strategies.

Sue Bennett from Central Queensland University and Peter Reilly from Queensland Alumina Limited describe a joint project involving the design, development and implementation of a multimedia training package. Their paper describes an initial evaluation and the progress of the project to date and the current and future strategies for evaluation of the training program. Trish Andrews and Greg Klease from the Central Queensland University describe a video conferencing project which was implemented to deliver simultaneous interactive instruction in first year chemistry to three campuses - Rockhampton, Mackay, Bundaberg. Tony Fetherston from Edith Cowan University presents some cogent arguments supporting the use of Gardner's multiple intelligences as a potential framework for the study of educational multimedia.

**FLEXIBILITY**  
*The next wave?*

**ASCILITE 98**

***ASCILITE's series of national conferences***

<http://cedir.uow.edu.au/ASCILITE98/>

**14-16 December 1998, Wollongong, NSW**

Gerry Foley and Sandy Schuck from the University of Technology, Sydney have written a paper which describes the use of a web based conferencing tool to promote dialogue within an international community of mathematics educators and prospective school teachers on the nature of mathematics and mathematics learning. Binh Pham from the University of Ballarat has provided a paper which discusses strategies for the evaluation of multimedia systems from both a cognitive and technical perspective.

The papers in this issue, as with all papers in the *Australian Journal of Educational Technology*, have been peer reviewed and recommended for publication by academics and researchers prominent in the field of instructional technologies. We hope you enjoy reading the journal and hope that the papers provide you with some valuable and challenging ideas for your own work.
