Join the Celebration in Cincinnati

It seems like only yesterday that a group of librarians founded the College Library Section of the American Library Association. But that was back in 1889 and it's just about time to celebrate the first century of academic librarianship.

The celebration begins at the ACRL Fifth National Conference, April 5-8, 1989 in Cincinnati, Ohio. The program features major speakers from higher education, technology and publishing. The best in library research will be presented by over 50 contributed paper authors. Panel presentations, small group discussions, poster sessions, exhibits and pre-conferences round out the conference.

There will be plenty of opportunities to meet old friends and new. Meet distinguished past ACRL presidents and executive directors at a luncheon in their honor. And help blow out the one hundred candles on the cake at the all-conference reception!

The second century of academic librarianship begins in Cincinnati on April 5, 1989.

LIBRARIES IN AN INFORMATION SOCIETY: A STATISTICAL SUMMARY

by

• Mary Jo Lynch
Director, ALA Office for Research

This publication brings together in one place basic statistics about libraries in the United States that describe what libraries are and do, how they are used and by whom, what they contain, how they are financed and staffed, and how they spend their resources. It was compiled, with the aid of a grant from OCLC, for those outside the library community who wish to know more about libraries as well as for librarians and potential librarians who seek a summary of the field.
