**THE UNIVERSITY OF WINDSOR** invites qualified applicants to apply for the following vacant positions: **PRINCIPAL SCIENCE LIBRARIAN** (Grade III) to assume responsibility for directing book selection and for coordinating reference and bibliographic services in the pure and applied sciences. **SENIOR SCIENCE LIBRARIANS** (Grade II) to assist in collection development, and to provide reference and bibliographic services in designated areas of the pure and applied sciences. Substantial background in the physical or life sciences and a minimum of four years (Grade III), or two years (Grade II) of working experience in a science library, or science information center is essential. Expanding medium-size university situated across international boundary from Detroit; air-conditioned building. Addition tripling present building capacity in the final planning stage. Salary range for Grade III position is Can. \$9,000-\$12,500; for Grade II Can. \$7,800-\$10,800. Fringe benefits include one month's vacation, sick leave, medical, hospital, disability and group insurance, pension plan. Applications, including curriculum vitae, should be directed to: William F. Dollar, University Librarian, UNIVERSITY OF WINDSOR, WINDSOR, ONTARIO, CANADA.

#### Readers Services

**A LIBERAL ARTS COLLEGE** for women in the beautiful southeast has an immediate open-

ing for Readers Services Librarian. Qualifications: master's degree in librarianship, administrative ability, five years successful experience. TIAA, major medical, Blue Cross-Blue Shield. Salary open. Write Box 739, CRL, 50 E. Huron St., Chicago, Ill. 60611.

#### Reference

**DOCUMENTS REFERENCE LIBRARIAN** responsible for collection of U.S., Pa., international governmental documents, and legal reference materials in large University Library. Duties include development and coordination of collection; provision of documental and legal reference service; supervision of professionals and clericals. Requirements: 5th year library degree, min. of 3 years appropriate and supervisory experience. Salary commensurate with education and experience. Good benefits, faculty status. Send vita with 3 references to: Personnel Librarian, The Pennsylvania State University Libraries, University Park, Pennsylvania 16802.

#### Resources

**ASSISTANT LIBRARIAN FOR RESOURCES AND TECHNICAL SERVICES LIBRARIAN I:** Salary range \$7,164-\$7,908 per annum. Duties: Assist in preorder and precatalog bibliographic searching, maintain out-of-print desiderata files, contact faculty in direct planning of library collections for curriculum support, assist in collaboration with circulation department in on-going inventory and collection building. For this position, some reading knowledge of foreign languages is necessary. (Russian especially desirable, though not necessary.) An active interest in the book trade and the application of computer techniques to the acquisitions process, combined with an aggressive personality, are especially important as qualifications for this position. Academic status. Annual leave, 24 working days. Liberal retirement plan, sick leave and health insurance plans. Write: Donald G. Wilson, Acting University Librarian, University of California Library, P.O. Box 5900, Riverside, California 92507. **WE ARE AN EQUAL OPPORTUNITY EMPLOYER.**

**IT'S STILL HAPPENING AND WE STILL NEED HELP.** We've interviewed many interesting persons but our System Resources Librarian's position is still available. A creative and stimulating professional life can be yours as you assist in selecting materials and developing a cooperative selection and acquisition policy for the DUPAGE LIBRARY SYSTEM of 21 public libraries in the Chicago metropolitan area. Headquarters office and headquarters library conveniently located in Wheaton on commuter line 45 minutes to loop. Directly responsible to the System Director, but will develop program by working with staffs of member libraries. Beginning salary up to

\$10,000. If you have imagination, understanding, some supervisory experience, knowledge of acquisition sources, wide book knowledge and talent for organization call, write, wire or come to see Alice E. McKinley, Executive Director of the DuPage Library System, 330 South Reber Street, Wheaton, Illinois 60187 (Tel: 312 653-6457).

**BIBLIOGRAPHIC CONTROL DIVISION HEAD** responsible for controlling access to in-process materials in large University Library. Duties include: training and supervision of professionals, searchers and student assistants in searching and precataloging. Requirements: 5th year library degree, min. of 2 years previous experience. Salary commensurate with experience and education. Send vita with 3 references to: Personnel Librarian, Pennsylvania State University Libraries, University Park, Pennsylvania 16802.

#### Serials

**SERIALS CATALOGER** to assist with serials cataloging, take charge of serials reclassification, and assume major responsibility for training new catalogers. Good experience with LC required. Beginning salary \$10,388 (academic year plus 8-week summer session). Complete academic status with all regular faculty vacations. Fast growing university with enrollment of 16,500, seven miles from another major university, and thirty miles from Detroit. Position open now. Apply E. W. Erickson, head librarian, Eastern Michigan University, Ypsilanti, Michigan.

**SERIALS CATALOGER** responsible for all serials cataloging in large University Library. Duties include: training and supervision of professional and non-professionals using LC copy; original cataloging in LC classification. Requirements: 5th year library degree, min. of 1 year previous serial catalog experience. Salary adjusted for experience and education. Good benefits, faculty status. Send vita with 3 references to: Personnel Librarian, The Pennsylvania State University Libraries, University Park, Pennsylvania 16802.

#### Subject Specialists

**BIBLIOGRAPHER.** New position, combining reference, cataloging, and some selection as specialist within functional organization. Academic status, good fringe benefits. Require graduate library degree and graduate study in Humanities or Social Sciences. Salary range \$7,100-\$9,000 depending on qualifications and experience. Box 738, CRL, 50 E. Huron St., Chicago 60611.

**DEPARTMENT HEADS,** in land grant university library serving 15,000 students. Re-

❖ When we first announced the publication of *Science Citation Index*,<sup>®</sup> skeptics said that it couldn't be done—that we could not maintain the initial low cost of \$1250 per year for *SCI*.<sup>®</sup> Contrary to this pessimistic prognosis, [SI] has, in effect, reduced the price of *SCI* by 20%. When you purchase a five-year run of *SCI* for 1964-1968, including the quarterlies for 1968, you pay only an average \$1000 for each year. The arithmetic is simple: you pay the same price for the 1968 *SCI* as when it started in 1964—\$1250—but you get the 1964 and 1965 editions at half-price, saving \$1250 in all. In other words, you get those five years of *SCI* for the price of four—a total discount of 20%.

❖ And consider this: Although the price in 1968 is the same—\$1250—as in 1964, the number of journals covered by *SCI* has tripled—an increase from 700 in 1964 to over 2000 in 1968!

❖ Each calendar-year edition of *SCI* is a completely different and permanently valuable reference tool. Each quarterly alone is a storehouse of information (and the quarterly issues can also be used in satellite libraries). Each annual is truly a record of the year's research—the only calendar-year index published.

❖ Don't be misled by false claims—*SCI* is the only index for science published based on the concept of citation indexing. [SI] invented the *SCI*. *SCI* is the only index in which you can trace the path of related scientific ideas through the years and across the arbitrary boundaries imposed by conventional classification systems and title indexing.†

❖ The fact that the 1968 *SCI* will contain over two million citation access points might seem meaningless in itself, were it not indicative of the orderly way in which this large reservoir of interdisciplinary data has been made available to you. Each access point represents an avenue of approach into the current scientific literature—a starting point in a search—that enables you to extract precisely that information which is most relevant to each of your scientist's particular needs—time and time again.

❖ A recent article by C. C. Spencer illustrates the unique role of *SCI* in the library. "Subject Searching with *Science Citation Index: Preparation of a Drug Bibliography Using Chemical Abstracts, Index Medicus, and Science Citation Index 1961 and 1964*" can be found in *American Documentation*, Vol. 18, No. 2, pages 87-96 (1967).

❖ A final word of caution to forward-looking librarians: We all resent the high charges made for reprinted edi-

tions of important bibliographical works. So don't wait until *SCI* is out of print. We do not have an inexhaustible supply. Indeed, *SCI* sales have exceeded our expectations and supplies will be exhausted within the next few years.

❖ Now is the time for you to act. If you are planning a new library, reserve your *SCI* set now.

❖ ❖ ❖ ❖ ❖ ❖ ❖  
 † We ought to know. We also publish the largest title index in the world. (It's called *Permuterm*<sup>®</sup> and it's sold to our *SCI* customers at a special discount.)

Did  
 You Know  
 that *SCI* is  
 Available  
 to You Now  
 for an Average  
 of \$1000  
 per Year?

quirements: graduate library degrees, subject backgrounds and several years of experience: (1) Engineering Sciences, and (2) Social Sciences. Faculty status. Salary: open. Apply: R. H. DeWitt, Assistant Director of Libraries, Colorado State University, Fort Collins, Colorado 80521.

**SOUTHEAST ASIAN LIBRARIAN**, Business Bibliographer, Cataloger. Where growth means opportunity, Northern Illinois University has three immediate positions in its expanding library. Masters degree required and experience desirable. Minimum salary \$720 a month and up, depending on qualifications. Eleven month contract, all college vacations, Illinois retirement system benefits. Faculty Status, academic rank. Interested applicants should send a detailed letter, transcripts of credits, experience record, and have letters of reference sent to Mr. George M. Nenonen, Personnel Director, Swen Franklin Parson Library, Northern Illinois University, DeKalb, Illinois, 60115.

**SOCIAL SCIENCE LIBRARIAN**: A new position. To head up a newly established Social Science Division at the fastest growing University Library in Western Michigan. We are interested in an imaginative working administrator-bibliographer, who can develop collections, deal with faculty and students, and able to train supporting staff. This is an opportunity to work in a unique public service

area. Plenty of room for creative and imaginative ideas to be introduced. Faculty rank and faculty status. Salary open and competitive. Generous fringe benefits. Kalamazoo is a pleasant city and a cultural center itself. Has excellent freeway connections in all directions and is two hours driving time from such major cities as Detroit and Chicago. Position available after September 1, 1968. Please send your application and curriculum vitae or call: Peter Spyers-Duran, Director of Libraries, Western Michigan University, Kalamazoo, Michigan 49001. 616/383-1847.

**RENSELAER POLYTECHNIC INSTITUTE** seeks **SCIENCE REFERENCE LIBRARIAN** for collection development and evaluation, liaison with faculty and students, reference duty; opportunities for research and for participation in development of library automation. Undergraduate background in science, MLS from accredited school. \$7,500+, 11-month year, usual employee benefits. Edward A. Chapman, Director of Libraries, Rensselaer Polytechnic Institute, Troy, N.Y. 12181.

**CHEMICAL**, librarian. The Shell Companies have an opening in the San Francisco Bay Area, and another in New York, for a chemical librarian. San Francisco Bay Area: Library serving major industrial research laboratory seeks individual to take charge of all public services, including scientific and bibliographic reference, and to assist in planning and implementing utilization of new methods of handling scientific and technical information. New York: Cataloging, reference, and literature searching on behalf of management and technical personnel engaged in research and development, engineering, sales, and market research. Requirements: BS in Chemistry, MLS preferred. 0 to 5 years experience. Shell's employee benefits include a liberal education assistance program. If interested in these positions, please send a complete resume to Q. C. Stanberry, Recruitment Representative, Dept. RL, The Shell Companies, Box 2099, Houston 77001. An equal opportunity employer.

**SCIENCE LIBRARIAN**: Oakland University requires a Science Librarian who will be responsible for science reference services, will assist in the selection and building of the science collection, and will maintain liaison with science faculty. A Bachelor's degree with a science concentration and a Master's degree in Librarianship from an accredited school are required. The salary range is from \$8,500 to \$10,000, depending upon education and experience. Kresge Library is located twenty-five miles from Detroit in beautiful surroundings. Send resume to: W. Royce Butler, University Librarian, Oakland University, Rochester, Michigan 48063.

# 14 Good Reasons Why You Should Spend \$1250 a Year for a Permuterm® Subject Index

**1 MULTI-ENTRY INDEXING** The key to *PSI™* indexing is title indexing in-depth by presenting alphabetized entries for every possible pairing of words in titles and subtitles.

**2 SPEED AND FLEXIBILITY** *PSI*'s technique of pairing words enables the user to locate any combination of terms quickly without having to examine a number of irrelevant items under a particular term.

**3 SPECIFICITY AND SELECTIVITY** *PSI* searches involving a single term are quick and efficient. Searches involving two or more terms are especially easy, as simple as an alphabetical look-up. Terms may even be used to exclude certain types of information.

**4 UNIQUENESS** The *PSI* is a "natural language" indexing system based on the real language of science, the current living vocabulary used today by publishing authors, not indexers.

**5 COMPREHENSIVENESS** The *PSI* policy of indexing all articles within a journal, regardless of discipline, prevents coverage gaps associated with the selective subject indexes.

**6 JOURNAL SELECTION** The *PSI* selection of important journals in all important fields is based, in part, on highly accurate citation analyses of their articles, not a mindless lifting of titles from other lists.

**7 MULTIDISCIPLINARY SCOPE** The *PSI* covers over 90 disciplines, categorizing the journals by subject and by country.

**8 EXTENSIVE COVERAGE** The *PSI* for 1967 covers 300,000 scientific and technological items.

**9 SOURCE IDENTIFICATION** All the source items are listed alphabetically by author in the accompanying *Source Index*. The source material identifies type of items as well as all co-authors and includes full bibliographic details.

**10 CROSS-REFERENCED AUTHORS** Comprehensive cross-references are provided for every co-author. Thus, all current articles by a given author can be identified in one place in the *Source Index*.

**11 CALENDAR YEAR COVERAGE** The *PSI* is a calendar year index and, for the journals covered, includes all items published and available by the end of the year.

**12 TRANSLATION** Foreign language titles are indexed under the corresponding English terms. Judicious man-machine editing has been applied as much as possible to standardize spelling variations.

**13 RELIABILITY** The *PSI* is produced by *ISI*, leader in producing proven information retrieval and dissemination services.

**14 SAVINGS** If you're already a subscriber to the *Science Citation Index*,® you can save an extra \$550. The price of the *PSI* to *SCI*® subscribers is a low \$700.

*And there is more. Find out for yourself. Write today to Dept. 101-91. We'll send details, information and sample formats.*

you can probably find it in--

## CHILDHOOD IN POETRY

A five-volume bibliography  
and index of 10,000 books  
and the 100,000 child-oriented poems  
which first appeared in them

Edited by John MacKay Shaw

A catalog of the  
Shaw Childhood in Poetry Collection  
Robert Manning Strozier Library  
Florida State University  
Tallahassee, Florida

3,500 pages -- 8 1/2 x 11 -- \$135.00

CHILDHOOD IN POETRY is believed to be the most comprehensive work ever published in the field of children's verse. In total, it is a gigantic mosaic that reflects the literary and social climates that have motivated children--and adults--throughout the centuries. Each entry provides extensive bibliographic details not only for first printings of books of poetry but also for anthologies, periodicals, annuals and other materials in which poems have appeared that relate to childhood or which have been read to and by children.

Librarians, researchers, teachers, and collectors will readily recognize this major new reference as their primary guide to the content of 10,000 books in which first appeared 100,000 poems on thousands of subjects ranging from Aardvark to Glass to Stains to Zoo.

Volumes 1 through 4 are composed of numbered entries listed alphabetically by author. For each book cited the title page is recorded in full; publication date and edition are specified; and volume size and pagination are indicated. Further details of collation, binding, points of issue identification, and the like are included where important. A typical passage from the poetry in each book is provided for quick appraisal of its style and content. The editor's personal comments on many poems, volumes, and poets, based on his intimate knowledge of the individual books, adds an only-source element of unusual value to the researcher.

The names of as many illustrators as could be identified through credits or research are cited, and one of the set's most interesting features is the 175 illustrations of both title and text pages that are reproduced from publications in the collection. These serve to graphically indicate the changing trends in both art and book design.

Volume 5 is an exhaustive two-part index to the collection. First, there is a Short Title List and Key arranged by author and numbered to correspond to the base volume. Through this, key books cited by number alone in the index are easily identified without referring to the base volumes. Second, there is a Keyword Index citing more than 100,000 poems under thousands of headings.

We invite you to examine CHILDHOOD IN POETRY free for thirty days, after which you may retain the set and pay our invoice or return it to us without further obligation.

"... valuable to any library  
supporting the study  
of children's literature". --CHOICE
