

NOTICES

• The American Association for the Advancement of Science (AAAS) announces the publication of the AAAS *Science Book List Supplement*. This all new *Supplement* extends the coverage of the AAAS *Science Book List* (third edition) from 1969 through 1977.

The *Supplement*, with more than 500 pages, includes citations and annotations of some 2,600 trade and text books in mathematics and the pure and applied sciences. These titles are recommended selections by qualified, independent reviewers from the more than 30,000 science and technical books published since 1969 for junior and senior high school students, college undergraduates, teachers, and the general reader. Among the many fields for which books are listed are psychology, sociology, medicine, data analysis and computer science, engineering and astronautics, mathematics and astronomy, photography, geography, agriculture, archeology, anthropology, science ethics, public policy, and the physical, biological, and environmental sciences.

Individual copies list for \$16.50 and may be ordered directly from AAAS, Sales Department, 1515 Massachusetts Avenue, N.W., Washington, DC 20005.

• *Directory of Financial Aids for Women* identifies and describes more than 500 sources of scholarships, fellowships, loans, internships,

grants, awards, and prizes for women; women's credit unions; and sources of state educational benefits.

Each entry offers information on the sponsoring organization, purpose of the program, eligibility requirements, financial remuneration, special features, limitations, number awarded, application date and address, etc. Also included is a detailed and critically annotated bibliography of 100 general financial aids directories. All entries are indexed by sponsoring organization, geographic coverage, and subject.

The directory has been compiled by Gail Schlachter, assistant university librarian at the University of California-Davis. The 200-page hardcover publication is available from Reference Service Press, 9023 Alcott St., Suite 201, Los Angeles, CA 90035 for \$15.95.

• The Texas A&M University Libraries has published as its Miscellaneous Publication 16 *The Future of Organizing Knowledge: Papers Presented at the Texas A&M University Libraries Centennial Academic Assembly, September 24, 1976*.

Irene B. Hoadley, director of libraries, noted that the libraries' assembly was one of many arranged by the academic units of Texas A&M to help mark the university's centennial of teaching, research, and public service.

The papers presented by three specialists, each concerned with a different aspect of knowledge and information of the future, are: "The Communications Revolution: America's Third Century Challenge" by Lee G. Burchinal, National Science Foundation; "The Future of Organizing Knowledge: A Matter of Access" by Ralph E. O'Dette, Chemical Abstracts Service; and "The Many Facets of MARC" by Lenore S. Maruyama, Library of Congress.

The fifty-page publication is available for \$5, prepaid, from the Friends of the Texas A&M University Library, Sterling C. Evans Library, Texas A&M University Libraries, College Station, TX 77843.

• Clarification of the copyright laws to assure protection for computer-readable works is recommended in a special publication of the Commerce Department's National Bureau of Standards (NBS). Based on research initiated in October 1974 under sponsorship of the National Science Foundation's Division of Science Information, the book-length NBS publication closely examines policy questions now before the National Commission on New Technological Uses of Copyrighted Works (CONTU).

"Without copyright for computer-readable works, increased secrecy, cutthroat competition, and lowered opportunity for recognition of crea-

Expanding Scope of ANTS

The ACRL Anthropology Section (ANTS) has been concentrating on the interests and needs of librarians in anthropology and related fields. It is now considering expanding the scope of the section to include the interests and needs of librarians specializing in sociology.

The section's executive committee wishes to determine the views of the membership. Should the section expand its scope and how? Should it continue to focus on anthropology? This issue will be discussed and a straw vote taken at the business/program meeting of the section on June 25, 1978, 2-4 p.m. Please send any ideas or suggestions to: Marilyn Haas, ACRL ANTS Chair, Lockwood Memorial Library, Reference Department, State University of New York at Buffalo, Buffalo, NY 14214, or Patricia White, ACRL ANTS Secretary, Reference Library, MSU Libraries, Michigan State University, East Lansing, MI 48824.

tive talents will result," says Roy Saltman, manager of the NBS copyright study project. "We are recommending changes to help resolve current uncertainties about ownership rights in computer-readable works." The NBS findings and recommendations have been presented to CONTU, established to advise Congress on the use of copyrighted materials in conjunction with computers.

Programs written in a source language and computer-readable data bases deserve copyright protection, according to the study. Another conclusion is that programs written in machine code should not be copyrighted as original works but should be protected under the copyright for the source language program. As Saltman states the principle: "The transformation of a copyrighted computer program into object code from source language should be considered to be the making of a copy."

Underlying the NBS recommendations for changes in the copyright law is an analysis of the legal, economic, and technical issues involved. The study examines historical foundations of copyright and traces changes and interpretations that have extended protection to new technological works over the past 200 years. It specifies a set of basic principles supporting the recommendations. Key principles include the concept of John Locke, the seventeenth-century British philosopher, that every person has the right to the fruits of his creation and the concept of the social contract that provides protection of law in return for full disclosure of original works.

The NBS findings, recommendations, and conclusions on copyright have been published as NBS Special Publication 500-17, *Copyright in Computer-Readable Works: Policy Impacts of Technological Change* by Roy G. Saltman. The book is for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, at \$4 a copy. Order by stock number 003-003-01843-1.

Continuing Education Opportunities

TITLE: Library Management Skills Institute
DATE: May 16-19, 1978
LOCATION: Chicago, Illinois
SPONSOR: Association of Research Libraries
COST: \$175
CONTACT: Office of University Library Management
 Association of Research Libraries
 1527 New Hampshire Ave.,
 N.W.
 Washington, DC 20036
 (202) 232-8656

- Close to half of the members of the Association of Research Libraries (ARL) are using remote storage of little-used materials as one answer to space limitations, according to the latest SPEC Flyer and Kit from the Office of University Library Management Studies (OMS) of the ARL. *Remote Storage in ARL Libraries*, Kit and Flyer #39 (December 1977), provides documentation and discussion concerning remote and compact storage policies, based on a 1977 survey of ARL members conducted by Cornell University's Olin Library.

Although national or regional storage and deposit facilities offer some hope for retention of selected materials, it appears that, for the most part, individual research and academic libraries have had to develop their own storage facilities. Remote storage usually is considered only part of the solution to the space crunch, in addition to microfilming, increased use of interlibrary loan, and weeding.

Two factors of greatest concern are (1) the limitations to user service and access to materials in remote storage, and (2) the time and expense of selecting materials for storage and altering bibliographic records.

Accompanying the two-page informational SPEC Flyer is a 112-page Kit, which contains preliminary results from the Cornell survey, sample survey responses, and library documentation on planning and procedures.

SPEC Flyer and Kit #39, *Remote Storage in ARL Libraries*, is available for \$7.50 to ARL members and SPEC subscribers, and for \$15 to all others, with prepayment required. Orders, with checks made payable to "OMS, Association of Research Libraries," can be sent to: Office of Management Studies, Association of Research Libraries, 1527 New Hampshire Ave., N.W., Washington, DC 20036.

- *Computer Output Microfilm (COM): An Alternative to Card Catalogs for SOLINET Members* is now available in either hardcopy or microfiche through ERIC. The ERIC number assigned to the report is ED 139 437. To receive a copy of the COM report, send either an authorized purchase order or a check for 83¢ plus 13¢ postage (for microfiche) or \$4.67 plus 41¢ postage (for hardcopy) to: ERIC Document Reproduction Service, P.O. Box 190, Arlington, VA 22210.

- *Guide to Alternative Periodicals (GAP)* is a comprehensive resource guidebook that covers more than 675 unique magazines, journals, and tabloids. Such little-known journals as *Simple Living*, *Earth Journal*, *Human Dimensions*, *Planet Drum*, *Ecology Action*, *Radical Teacher*, *Herbalist*, *Creative Simplicity*, *Interracial Books for Children*, *Living Wilderness*, *Solar Age*, *Handcrafters News*, *Country Women*, *Kundalini Quarterly*, *Feminist Art Journal*, *Vegetarian Voice*, *Self-Reliance*, and *Yoga Journal* are indexed.

It is available for \$3 (\$4 if billed) from Sunspark Press, Box 91, Greenleaf, OR 97445.

• **Preservation of Paper and Textiles of Historical and Artistic Value** by John C. Williams considers the preservation and restoration of paper and textiles. This has become a monumental task for conservators and librarians. While paper and textile production has increased in volume and variety in the past 200 years, the permanent quality of these materials has declined. This interdisciplinary collection discusses three major themes: the care and preservation of books and manuscripts, the care and preservation of textiles, and the estimation of permanence.

The publication price is \$38. Order from the American Chemical Society, 1155 Sixteenth Street, N.W., Washington, DC 20036.

• Congressional Information Service, Inc. (CIS), has announced the publication of Part I of its twelve-part *CIS U.S. Serial Set Index, 1789-1969* and companion *CIS U.S. Serial Set on Microfiche*.

Begun in 1975, this major reference project will ultimately span the first 180 years of America's oldest documents series, a massive collection of congressional reports and documents, as well as executive agency and departmental reports and certain nongovernmental publications.

Part I of the CIS project covers the *American State Papers* and Serial Set publications from earliest issuance through 1857. Parts IX through XII, 1925-69, were previously issued, and Parts II through VIII, for the intervening period, 1857-1925, are in preparation. (Since 1970, the *CIS/Index* and companion microfiche service have provided monthly, updated coverage of Serial Set publications, plus congressional committee hearings and prints.)

Scheduled for completion in 1979, the *CIS U.S. Serial Set Index* aims to serve as the only comprehensive, modern finding aid to the entire pre-1970 collection. Approximately eleven million pages of information, originally issued in 330,000 titles bound into 14,000 volumes, are being published concurrently in the *CIS U.S. Serial Set on Microfiche*.

Each of the twelve index parts, cumulated for its respective time period, is composed of three clothbound volumes. Two volumes contain an "Index of Subjects and Keywords," with extensive cross-referencing. A third volume of supplementary indexes includes an alphabetical list of proposed recipients of private relief or related actions, a numerical list of reports and documents, and a shelllist. Index entries provide full bibliographic data for retrieving source publications from within either a hardcopy collection or the CIS full-text microfiche file, which is being filmed from a variety of sources to assure inclusiveness.

The twelve parts of the *CIS U.S. Serial Set Index* may be purchased on standing order for \$360 each (\$400 per part if purchased separately.) Complete corresponding groups of the *CIS U.S. Serial Set on Microfiche* average \$8,950 each on

standing order. Collections may also be acquired in smaller segments, such as a specified period of time or an individual Congress.

Sample materials and details on the CIS project may be obtained by contacting: Congressional Information Service, Inc., 7101 Wisconsin Ave., Suite 900, Washington, DC 20014; (301) 654-1550.

• Instruction in how to research congressional publications is provided by the new *CIS/Index User Handbook* available free to librarians from Congressional Information Service, Inc.

Dealing specifically with congressional "working papers"—hearings, committee prints, documents, reports, and special publications—the thirty-two-page illustrated guide introduces a simple, four-step approach to identifying and evaluating likely information sources using the *CIS/Index* and *Abstracts*. It also explains how and where to obtain source materials in either their original hardcopy form or on microfiche.

Other features include several sample information searches, a list of House, Senate, and joint committees, and a review of the various types of congressional publications.

Designed for classroom, workshop, and self-instructional use, the handbook may be obtained by writing to: Education Coordinator, CIS, 7101 Wisconsin Ave., Suite 900, Washington, DC 20014. Quantity requests should be accompanied by a description of intended use.

• Capital Systems Group has compiled a *Directory of On-line Bibliographic Data Bases* that are publicly available from various suppliers. More than ninety data bases are listed and described, and vendors are indicated. The directory also contains a subject index and a list of suppliers' addresses and phone numbers.

The publication, which is available from Capital Systems Group, lists data bases accessible as of January 1, 1978. The price per copy is \$5.50, prepaid, postage and handling included.

The directory may be ordered from: Publications Dept., Capital Systems Group, 6110 Executive Blvd., Rockville, MD 20852; (301) 881-9400.

• The students of the Graduate Library School at the University of Arizona have compiled a manual on abstracts and abstracting for students. This brief guide is designed to help students understand the principles of abstracting and aid in the writing and evaluation of abstracts.

Copies of *Abstracts and Abstracting: A Manual for Students* are available for \$2.50 plus 25¢ postage and handling from: Bureau of Educational Services, College of Education, University of Arizona, Tucson, AZ 85721.

Classified Advertising

NOTICE

Respondents to advertisers offering faculty "rank" and "status" are advised that these terms are ambiguous and should inquire as to benefits involved.

All advertisements for the Positions Wanted and the Positions Open classifications will be edited to exclude direct or indirect references to race, creed, color, age, and sex as conditions of employment.

Classified advertising orders and copy, and cancellations, should be addressed to the Advertising Department, American Library Association, 50 E. Huron St., Chicago, IL 60611 and should reach that office before the second of the month preceding publication of issue desired. Copy received after that time may be held for the next issue.

Telephone orders for classified advertising, while not encouraged because of the increased risk of copy error, will be accepted. Calls should be directed to Leona Swiech at (312) 944-6780. A confirming order should be mailed to the Advertising Department as soon as possible following the call, along with typewritten copy to be used in proofreading the ad.

Rate for classified advertising is \$1.80 per printed line to ACRL members; \$2.25 per printed line to non-ACRL members.

SEARCH SERVICE. Ex-librarians locate titles or subject, plus 150,000 indexed stock. PAB 2917 Atlantic, Atlantic City, NJ 08401. Phone: 609/344-1943.

POSITIONS OPEN

ACQUISITIONS LIBRARIAN. Acquires materials, assists with the evaluation and processing of gifts, assists with collection building and evaluation of collection; assists in the transition from Dewey to LC. Some reference assignments. Knowledge of OCLC and MARC format highly desirable. MLS from ALA accredited library school required and definite plans for a second master's highly desirable. Some previous acquisition experience essential. Knowledge of French, German, Spanish and Latin essential. Faculty status. TIAA Salary open, dependent on experience. Position available July 1, 1978. (All formal applications due May 1, 1978). Send letter of inquiry plus resume to James A. Martindale, Director of Libraries, DePauw University, Greencastle, IN 46135. An affirmative action/equal opportunity employer.

ASSISTANT DIRECTOR. Senior administrative officer of the resources and reference services division (public services); reports to the director. Manages collection development, public services activities, 24 library faculty members, 17 school and departmental libraries. Acts as liaison with other divisions of libraries and audiovisual center as well as teaching and research faculty and students. Provides leadership in library faculty development. Expected to meet criteria for faculty promotion and tenure requirements. Desired qualifications: advanced degree in library or information science, additional degree or graduate work. Record of increasing job responsibilities, with public service experience in an academic or research library. Ability to coordinate and direct the activities of a large division. Experience in library management. Evidence of professional activity such as research and participation in professional organizations. Available July 1, 1978. Position carries faculty rank and responsibilities, rank and salary commensurate with qualifications and experience. Minimum salary \$20,000. Send resume, letters of reference, and list of publications and research activities to John Thomas, Personnel Officer, Purdue University Libraries/AVC, West Lafayette, IN 47907. Deadline for applications: May 15, 1978. An equal opportunity/affirmative action employer.

ASSISTANT DIRECTOR OF COLLEGE LIBRARY. Private college for women, two- and four-year programs, 600 students, over 50,000 print and nonprint materials. MLS required, plus experience. Responsibilities: reference, cataloging, student assistants, periodicals, orientation and library instruction. AV materials. Salary range \$10,000 to \$12,000 depending on qualifications. Begin June 1978. Deadline for applications, May 1, 1978. Apply to: Mrs. Kay Gillis, Personnel Director, Centenary College, 400 Jefferson St., Hackettstown, NJ 07840. An equal opportunity/affirmative action employer.

ASSISTANT GOVERNMENT PUBLICATIONS LIBRARIAN. Performs a wide variety of public services and technical processing in connection with sizable collections of documents, law materials, and maps. Graduate library degree and some familiarity with government publications required. Rank: assistant librarian; initial sal-
