Introducing 3 New Online Services for 1981

Place your reservation today for a FREE workshop describing *ISI/BIOMED*[™], *ISI/ISTP&B*[™], or *ISI/CompuMath*[™]—the distinctive, new data bases designed to make your online searches *quicker, easier, more comprehensive*.

ISI/BIOMED is a user-friendly system which produces high-precision biomedical bibliographies. Nearly 1,300 biomedical journals from 1979 to the present will be indexed, and users may search by article title words, source journals, cited papers, and by a new search capability—research front specialties. Research front specialty searching permits you to enter a code number for a highly specific research front and quickly retrieve a bibliography of recent articles relevant to that specialty. Over 2,700 search fronts, accessible through *ISI/BIOMED*, are listed in the guide which every subscriber receives.

ISI/ISTP&B (*Index to Scientific & Technical Proceedings & Books*) is the only multidisciplinary online data base to scientific proceedings and books. Covering virtually every scientific and technical discipline, *ISI/ISTP&B* will make retrospective and current awareness searching, bibliographic verification, and acquisitions of proceedings and multi-authored books fast and easy. Over 10,000 proceedings (from books and journals) which appear in the printed *Index to*

Scientific & Technical Proceedings[®], plus over 2,000 books (including annual review series), will be covered and indexed at the *chapter level*. Publications from 1978 to the present will be covered initially, and each month 300 new proceedings and books will be added.

ISI/CompuMath provides access to the core literature in the fields of general and applied mathematics, statistics, computer science, and operations research/management science. Nearly 300 journals and multi-authored books will be covered from 1976 to the present. Like *ISI/BIOMED*, the user friendly *CompuMath* system will provide users with the unique research front specialty searching capability. And *ISI/CompuMath* is only one part of a comprehensive package of information services for these disciplines. Also included in the *CompuMath* subscription service are a monthly current awareness edition of *Current Contents*[®] which reproduces tables of contents from recently-published journals and books; and an annual index featuring author, title word, and citation indexes.

Please place my reservation for a FREE workshop describing:

NEW AMERICAN WORLD

THE MOST COMPLETE COLLECTION
OF SOURCE DOCUMENTS ON THE
DISCOVERY, EXPLORATION AND
EARLY COLONIZATION OF
NORTH AMERICA IN A SINGLE SOURCE.

Edited with Commentary by
DAVID B. QUINN

NEW AMERICAN WORLD includes documents from European archives and collections that have never before been published. These further the understanding of the economic and political motives of the European rulers, the nature of the first European contacts with North America, and the customs of the Amerindians.

The discovery, exploration and settlement of the New World comes alive in the vivid nar-

ratives, reports and correspondence of the European explorers who first sailed along its coasts, penetrated the interior, and exploited, enslaved, missionized, made war upon, and traded with its native inhabitants. David Beers Quinn, recognized as one of the world's leading authorities on the era, has assembled the collection, written the essays, commentaries and head notes that comprise NEW AMERICAN WORLD. All the documents are in the English language.

- Published for the first time, or newly translated—220 documents on European commercial enterprise, whaling, codfisheries, naval battles, politics, social customs.

- The definitive work

on English exploration in the 15th and 16th centuries.

- Extensive coverage of Greek, Roman, Muslim concepts of the earth's surface that influenced early explorers.

- Material seminal to history, geography, cartography, archaeology, sociology, and religion.

- Useful bibliographical references for all documents and a comprehensive index.

- The set comprises 5 volumes of over 2900 pages in an over-size 8½ x 11 double column format with 851 primary documents and 147 maps.

NEW AMERICAN WORLD LC77-20483
Five volumes: \$350.00 the set (ISBN 0-405-10759-5)
Published jointly with Hector and Bye, Inc.
