Approximately fourteen librarians were eligible to participate in the vote. Seven librarians were members of AAUP before the election. ■■

## WILLIS WRIGHT DIES

Willis E. Wright, 75, Williams College librarian and former ACRL president, died on October 2 in Portola Valley, California. He had served as librarian at Williams College for twenty-one years and after his retirement had begun a new career as rare books cataloger at Stanford University Libraries.

Bill was an extraordinary individual and a remarkable addition to our company at Stanford during the past ten years. He started work in September 1969 as a cataloger of sixteenth-century imprints, American almanacs, and also early American imprints in the Department of Special Collections. He reduced his schedule to part-time in 1974 but worked until just the last few weeks before his death on cataloging of the most difficult imprints, both monograph and serials and in a wide range of classical and modern languages. During the entire year 1973–74, he was chief of the Department of Special Collections.

A Phi Beta Kappa, Wright was a graduate of Williams College, majoring in philosophy, and received his master's degree from Williams in philosophy and Greek. He was a cataloger and chief cataloger at the New York Public Library from 1927 to 1945, librarian of the Army Medical Library during 1945–46, and librarian for Williams from 1947 to 1968, when he ostensibly retired. Bill was president of the Association of College and Research Libraries in 1949–50, president of the former Cataloging and Classification Association, and recipient of the Melvil Dewey Medal in 1957. In addition, from 1954 to 1967, he was chair of the Catalog Code Revision Committee and chair from 1947 to 1967 of the Union List of Serials Joint Committee. One of his various publications was a 1948 translation of the Vatican cataloging rules.

Perhaps Bill's greatest achievement in special collections was clearing the backlog of uncataloged items. In a letter of May 28, 1970, Bill says, "I love to put through books that have been sitting around for seventy-five years or so—it gives an impression of progress." Bill also had the knack of quickly identifying books that lacked title pages or incipits. Bill was a remarkable friend and colleague.—*David C. Weber.*
