NECROLOGY

ETHEL M. CHRISTOFFERS, former head of the reference division of the University of Washington libraries, died on April 15, 1970.

PROF. JANE GANFIELD, assistant director for processing services, Purdue University libraries, died April 18, 1970, after a long illness. She was 58. Active in professional library affairs, she was vice-chairman and chairman of the Pure and Applied Sciences Section of the Association of College and Research Libraries in 1953 and 1954, and in 1964 she was elected President of the Resources and Technical Services Division of the American Library Association.

GERALD D. McDONALD, chief of special collections in the research libraries of the New York Public Library, died Wednesday, May 6, in Paris. Dr. McDonald was on a buying trip for the library at the time of his death. He lived at 36 West 10th Street, New York City.

Dr. McDonald joined the library in 1930 as an assistant in the information division. He was later in charge of the rare book division and, after his return from military leave in 1945, was appointed chief of the American history and genealogy division.

In 1969, he was appointed to the newly created post of chief of special collections. He had general responsibility for the library's Arents Collections, Berg Collection, Manuscript Division, Prints Division, Rare Book Division,

FRITZ VON UNRUH
RICHARD HUELSENBECK
... AND MANY, MANY,
MANY, MANY, MANY, MORE

As the nature of Nazi oppression became increasingly apparent, an entire literary generation emigrated from Germany. Writers, journalists, members of the book trade brought with them their imagination, hopes and talent.

This highly absorbing bibliographical reference work reveals

- how thousands of German-language books and journals, published outside the Third Reich, were imported and distributed in America
- who was responsible for printing and publishing Free German Literature in this country
- the fate of the German émigré author in America

A fascinating story tells how social, political, even labor elements influenced and were influenced by this massive literary exodus. Appendixes list and describe (in many cases for the first time) the emigration German-language literature produced on these shores. More than 350 publications from 80 publishers and 82 newspapers and periodicals are also identified.

An indispensable reference work for the librarian, literary and social historian, collector, bookseller and involved reader.

GALE'S CUMULATION OF 1942-62 LC CATALOGS RECEIVES PRAISE FROM USERS

"Revised arrangement aids searching . . ." "Has been worth every cent . . ." "Easy to use . . ."
 "Thanks for reconciling inconsistencies . . ."

Gale's edition of the cumulated supplemental LC/NUC author catalogs* solves in logical, professional ways the problems of variant practices, inconsistencies, etc., which plague the users of the four separate supplements—and the value of Gale's consistently arranged, one-alphabet set is now eagerly attested to by hundreds of users.

Because the cumulation represents thousands of professional and technical judgments which have been given permanent usefulness by being issued in printed form, the value of the cumulation is obviously much greater than merely the sum of the value of the individual supplements.

Gale believes, therefore, that owners of the four supplements who have delayed considering the cumulation because

"we already have the material" should reconsider their decisions, because while their libraries technically *have* the same information it is in a form which is expensive to use.

The time of a professional person earning \$10,000 per year and working eight hours a day is worth nearly \$5.00 per hour. As the testimonials below indicate, users find the Gale cumulation saves them substantial amounts of time. Saving only one hour . . . \$5.00 . . . per day by using the Gale cumulation represents a saving of more than \$100 per month . . . which is about all that is needed to buy the set as it appears.

These substantial savings *begin immediately—and continue for as long as the cumulation is in use.* Shouldn't your library begin to take advantage of these savings now?

*IN CASE YOU AREN'T FAMILIAR WITH THE GALE CUMULATION: Gale's *Library of Congress and National Union Catalog Author Lists, 1942-1962: A Master Cumulation*, embraces these four supplements to *A Catalog of Books Represented by Library of Congress Printed Cards: Catalog of Books Represented by Library of Congress Printed Cards—Supplement (1942-1947)*; *The Library of Congress Author Catalog, 1948-1952*; *The National Union Catalog: A Cumulative Author List, 1953-1957*; *The National Union Catalog: A Cumulative Author List, 1958-1962*.

YOUR FELLOW LIBRARIANS PINPOINT THE WORTH OF GALE'S LC-NUC CUMULATION:

CONSISTENT, WELL-EDITED: "Just having all these supplements in one alphabet is useful enough, but thank you for straightening out various inconsistencies in headings, etc."—*C. K. Davis, Technical Services Head, Clark County (Nevada) Library District.*

"Due to the revised arrangement of the entries, they are much easier to find."—*Frances P. Means, University of Arizona Library, Tucson, Arizona.*

"Well edited and accurate."—*William A. Fitzgerald, Director, Memorial Library, Marquette University Libraries.*

SPEEDS PROCESSING: "It has been worth every cent. It helps us avoid accumulating a backlog of work, saves waiting for LC cards, and lets us get books on the shelves faster."—*Edith French Waterman, Chairman, Library Department, The Golda S. Payne Library, Montgomery College, Takoma Park, Maryland.*

"We have a favorable impression of the cumulation. It is especially useful for establishing authors and assigning subject headings."—*Dezsoe Doszpoly, Director of Library Services, Philadelphia College of Textiles and Science, Philadelphia, Pa.*

VALUABLE RECLASSIFICATION TOOL: "An essential tool in re-classifying to LC."—*Sister M. Olivia Kidney, Assistant Librarian, Memorial Library, Mount St. Mary College, Hooksett, New Hampshire.*

"Very useful, well done. Very useful in our current project of conversion to LC classification."—*Phillip J. Moloso III, Library Technical Services*

A Master Cumulation

76 KLAG-KOMA

Gale

Director, Maricopa County (Arizona) Junior College District.

SAVES TIME: "I think it will reduce all search time by about at least one-third, thus effecting an important saving in manpower. On this basis alone, I believe, it is a worthwhile investment for any large or medium-sized academic or research library."—*Elliott S. M. Gatner, Associate Director of Libraries, Long Island University, Zeckendorf Campus, Brooklyn, New York.*

"Easy to use, very convenient, saves steps and time."—*Mrs. R. T. Matthews, Catalog Librarian, Virginia Wesleyan College, Norfolk, Virginia.*

A UNIQUE SOURCE: "Extremely useful and fills a need not presently covered by other works."—*Alfred L. Freund, Plainedge Public Library, Massapequa, New York.*

"For foreign books I have unexpectedly found it especially helpful."—*Marian S. Hanna, Cataloger-Assistant Librarian, Camden County College Library, Blackwood, New Jersey.*

EXCELLENT: "An excellent job; printing quality is high and format is usable."—*Ken Barksdale, Acquisitions Chief, John Grant Crabbe Library, Eastern Kentucky University, Richmond, Kentucky.*

"Excellent. We use it for author verification, catalogue information, and as a great bibliography."—*Terence W. Cassidy, Assistant Librarian, University of Texas Medical Branch Library, Galveston, Texas.*

"Excellent. When completed, it will save us three steps in some searches."—*J. Z. Nitecki, Assistant Director of Libraries for Technical Service, University of Wisconsin—Milwaukee Library.*
