Contemporary Authors

THE BIO-BIBLIOGRAPHICAL GUIDE TO CURRENT AUTHORS AND THEIR WORKS

* 24 VOLUMES NOW IN PRINT

* 3,000 SKETCHES ANNUALLY

* CUMULATIVELY INDEXED

* A TOTAL OF 22,000 SKETCHES

* EARLY VOLUMES NOW FULLY REVISED

* NO DUPLICATION AMONG VOLUMES

* ANNUAL SUBSCRIPTION \$25.00

For the past eight years *Contemporary Authors* has drastically reduced the research problems of librarians, teachers, students, and general readers who have sought bio-bibliographical information on today's authors. Researchers from the junior high school to the university level consult *CA* first for concise, orderly details on writers whose works are being published, read, and discussed currently.

More than 75% of the listings in *CA* are not to be found in any other commonly used bio-bibliographical reference. Thus, *CA* is essential for up-to-date facts on thousands of minor, unrated, and first-time writers as well as major authors. Even authors listed in other biographical dictionaries are usually covered more thoroughly in *CA*.

CA tries to include as many legitimate authors as possible, rather than excluding all but the most famous. Living writers of fiction, general nonfiction, juvenile books, poetry, drama, biography, history, non-technical textbooks—in fact, all authors with commercially published works in English, except technical writers—are within the scope of *CA*. To insure maximum accuracy and interest, sketches are based on material secured directly from the authors themselves through questionnaires and personal correspondence.

Each sketch in *CA* includes complete personal and career data (covering pseudonyms, family background, present address, jobs and positions, memberships, awards and honors, etc.) plus these distinctive features:

Unabridged Bibliography: Lists all books written, edited, and compiled by an author, as well as those to which he has contributed, regardless of the number of titles

Sidelights: Comprised of the author's personal comments plus a cross-section of critical opinion; information in this section gives insights into the author's achievement, personality, writing habits, and interests

Critical and Biographical Sources: Includes books and articles which contain further details on an author's work and life

Work in Progress: With probable titles, publishers, and completion dates

Because the sketches are coherent, lively, and free of annoying abbreviations, they stimulate young readers' interest in authors and encourage the use of reference books. The volumes are bound to stand up well under constant use. Volumes 1-8 (originally published 1963-64) have been thoroughly revised, updated, and expanded, checked by the authors, and bound in two volumes (1-4, 5-8), each in one straight alphabet.
