NEW CATALOGING MANUALS ARE IN PROGRESS

A project to develop cataloging manuals for graphics, manuscripts, and motion pictures/videorecordings has been undertaken cooperatively by the Library of Congress and the Joint Committee on Specialized Cataloging of the Council of National Library and Information Associations. The Joint Committee's participation in the project has been funded by a grant from the Research Resources Program of the National Endowment for the Humanities.

The project arose from a general feeling among concerned librarians that the special format mate-

rials are not adequately covered by the new edition of the *Anglo-American Cataloging Rules* (AACR 2).

Initial development of the manuals will be done at the Library of Congress. First drafts will be distributed by members of the Joint Committee to interested individuals and organizations for review and comment. Three committees of specialists, one for each of the formats, will meet in Washington for a final review.

Librarians, archivists, and curators will benefit enormously by having standardized cataloging manuals for these materials, since no nationally recognized alternative exists. Those interested in the project should contact Elisabeth W. Betz, Picture Cataloging Specialist, Prints and Photographs Division, Library of Congress, Washington, DC 20540; (202) 287-5836. ■■
