GEOSFERA INDONESIA

Geosfera Indonesia is a journal publishes original research, review, and short communication (written by researchers, academicians, professional, and practitioners from all over the world) which utilizes geographic and environment approaches (human, physical landscape, nature-society and GIS) to resolve human-environment interaction problems that have a spatial dimension. Moreover, Geosfera Indonesia also committed to enhance and share original research, review, and short communication (written by researchers, academicians, professional, and practitioners from all over the world) on geography education and environmental education.

Our journal's scope includes :

1. Geography Education
2. Physical Geography
3. Human Geography
4. Geographic Information System (GIS)
5. Remote Sensing
6. Environmental Science
7. Environmental Education
8. Disaster Risk Reduction
