

## **The AHP/ANP Community Mourns the Loss of Thomas L. Saaty**

Sadly, we start this issue by announcing the death of the creator of the AHP/ANP methodology, Dr. Thomas L. Saaty. He was also the founder of this journal aimed at spreading AHP/ANP among decision-makers. For those who met him and who were lucky to be taken under his wing, he will always remain in our hearts and minds as Tom, a teacher, a mentor, a beloved friend and probably the most unique person that crossed our paths. We will miss him deeply!

A handwritten signature in black ink, reading "Enrique Mu".
