IEEE EDUCON 2011

IEEE Global Engineering Education Conference
"Learning Environments and Ecosystems in Engineering Education"

04-06 April 2011 in Amman/Jordan

This Conference is the second of a series within IEEE Region 8. It will provide an interdisciplinary forum for academic, research and industrial collaboration in engineering education by presenting newest research results and practical show cases. In this way it aims to bridge the gap between pure academic research and real world experiences. The theme of this second EDUCON2011 conference will be "Learning Environments and Ecosystems in Engineering Education". It will be hosted by Princess Sumaya University for Technology, Amman, Jordan in the period 04-06 April 2011.

Conference Chairs:

- Abdullah Y. Al-Zoubi**, Member IEEE, [Princess Sumaya University of Technology](#), Jordan
- Michael E. Auer**, Senior Member IEEE, [Carinthia Tech Institute, Villach](#), Austria
- Edmundo Tovar**, Senior Member IEEE, [Universidad Politécnica de Madrid](#), Spain

Organized by

 IEEE Education Society

 Princess Sumaya University, Amman, Jordan

 Universidad Politécnica de Madrid, Spain

 Carinthia Tech Institute Villach, Austria

Supported by

<http://www.educon-conference.org/educon2010/>

From 15 July to 15 September 2010, we welcome one page abstract submissions in the following main conference areas:

- Educational Methods and New Pedagogic Models in Engineering Education
- Learning in Transition and Engineering Education Ecosystems
- Infrastructure and Technologies for Engineering Education
- Innovative Teaching and Learning Experiences in Engineering Education
- Excellence in Engineering Education
- Knowledge and Competencies in Engineering

See you in Amman in April, 2011 !!!
