## Preface

Dental Journal (Majalah Kedokteran Gigi) is proud to be one of few certified scientific journal by the Indonesian Higher Education Authority. We have been publishing since 1968. We are supported by Indonesian and International editors. Quality is always maintained in order to provide our readers with update scientific information. With the spirit and vision to be an internationally indexed journal, Dental Journal (Majalah Kedokteran Gigi) is published in English and now available both print and online. Our full journal articles can be accessed online since 2005. In 2015 we change our design layout, and update our guide for authors. We also open our online journal portal to begin processing online journal submission. We understand that there are problems and challenges to become internationally recognized and indexed but we believe with optimism and hard work, our solid team will succeed. We would also like to acknowledge generous supports from the Dean of Faculty of Dental Medicine Universitas Airlangga, Airlangga Journal Development Team, and National Scientific Journal Reviewer Board of The Indonesian Ministry of Education.

Best regards,  
Chief Editor

Ketut Suardita, drg., Ph.D., Sp.KG.
