

Dental Journal

Majalah Kedokteran Gigi

Vol. 41 • No. 3 July-September 2008

Published quarterly per year

CONTENTS

Cytotoxicity test of 40, 50, and 60% citric acid as dentin conditioner by using MTT assay on culture cell line

Cytotoxicity of 5% *Tamarindus indica* extract and 3% hydrogen peroxide as root canal irrigation

Effect of various temperature and storage duration on setting time of OREGA sealer

The effectiveness of 0.5 - 0.7% tetracycline gel to reduced subgingival plaque bacteria

The profile of upper integument lip of Baduy and the nearby living Sundanese in South Banten, West Java, Indonesia

Isolation and identification of java race amniotic membrane secretory leukocyte protease inhibitor gene

The role of proper treatment of maxillary sinusitis in the healing of persistent oroantral fistula

The management of oral candidosis in diabetic patient with maxillary Herpes Zoster

Non-invasive endodontic treatment for large periapical lesion

Potential role of odontoblasts in the innate immune response of the dental pulp

The use of bay leaf (*Eugenia polyantha* Wight) in dentistry
