Notice

To be cited **Notulae Scientia Biologicae** or abbreviated title **Not Sci Biol**.

The Editorial Board of Not Sci Biol is not responsible for statements and opinions published; they represent the views of the authors or persons to whom they are credited. Publication of research information does not constitute a recommendation or endorsement of products involved.

Aims and scope

[Notulae Scientia Biologicae](#) is a quarterly peer-reviewed journal aimed at disseminating significant research and original papers, critical reviews and short reviews on life sciences and medicine, development of new methodologies that can be of interest to a wide audience of scientists in all areas of biology sciences. The journal encourages authors to frame their research questions and discuss their results in terms of the major questions of biology, agriculture, horticulture, forestry, biotechnology and medicine, thereby maximizing the impact, spreading and value of their research. The papers must be of potential interest to a significant number of scientists and, if specific to a local situation, must be relevant to a wide body of knowledge in life and medical sciences. Articles should make a significant contribution to the advancement of knowledge or toward a better understanding of existing biological, agricultural and medical concepts. An international Editorial Board advises the journal. The total content of the journal may be used for educational, non-profit purposes without regard to copyright. The distribution of the material is encouraged with the condition that the authors and the source (Notulae Scientia Biologicae or Not Sci Biol) are mentioned.

Submission

The journal offers to authors a fully web-enabled online manuscript submission, instructions for authors and review system available at <https://www.notulaebiologicae.ro>

Papers are published in English (British spelling) and the authors are fully responsible for the originality of their papers and for the correctness of their subject-matter, language and formal attributes. Authors whose mother tongue is not English are strongly urged to have their manuscripts reviewed linguistically before submission.

Manuscripts submitted must be edited, for clarity and conformity purposes according to Author's guidelines, and must not have been previously published or simultaneously submitted elsewhere.

The papers can be submitted online by the "senior author" (the main author, or the person who takes responsibility for the integrity of the work as a whole, from submission to the published article). The submission process is described on the web site.

An Author Statement, available on the website, should be enclosed by "senior author" declaring that the paper has not been published anywhere else, permission to reproduce the material, authorship credit, contributors and creditors for the integrity of the work as a whole, to avoid the conflicts of interest and scientist fraud, and respecting the ethical principles of publishing, research and scientific rights.

Publication Frequency

Quarterly (four issues per volume/year):

Issue 1: January-March

Issue 2: April-June

Issue 3: July-September

Issue 4: October-December

Publication Ethics and Publication Malpractice Policy

The journal respects the publication ethics norms, based on internationally accepted best practice guidelines for journal editors, notably the Committee on Publication Ethics ([COPE](#)), the World Association of Medical Editors Ethics ([WAME](#)), the International Committee of Medical Journal Editors ([ICMJE](#)) and Consolidated Standards of Reporting Trials ([Consort](#)).

Table of Contents - Vol 15, No 1 (2023)

CONTENT	Article number
Editorial	
Introduction pages, Notulae Scientia Biologicae 15(1), 2023 Radu E. SESTRAS	11534 PDF
<hr/>	
Review articles	
A review of Moroccan medicinal plants used in the treatment of inflammation Aziz ZOUHRI, Yahya EL-MERNISSI, Naoual EL MENYTY, Toufik BOUDDINE, Nora MIR, Kamal EL AISSAOUI, Hassan AMHAMDI, Abdelhay ELHARRAK, Lhoussain HAJJI	11414 PDF
From skin infection to invasive diseases: A descriptive review of <i>Staphylococcus aureus</i>, focusing on Panton-Valentine leucocidin and methicillin-resistant strains Ikrame ZEOUK	11402 PDF
Pathophysiological aspects of renal stone formation and stone types Rabie KACHKOUL, Ghita BENJELLOUN TOUIMI, Ghita EL MOUHRI, Radouane EL HABBANI, Anissa LAHRICHI	11462 PDF
Potential biological control agents for the control of vector mosquitoes: A review Anjali RAWANI	11325 PDF
<hr/>	
Research articles	
A short-term survival analysis of severe patients with acute vascular event admitted on intensive care unit department Alexandra SAIOC, Vlad-Ionuț NECHITA, Cosmin I. PUIA	11394 PDF
Antidepressant and anxiolytic-like activities of the dichloromethane/methanol extract of <i>Crateva adansonii</i> in mice exposed to chronic mild stress Galba J. BEPPE, Nanou G. ALLAH-DOUM, Bertrand P. BARGA, Alice I. FOLEFACK, Alain B. DONGMO	11459 PDF
Biogenesis of silver nanoparticles from the shoot extract of <i>Delonix regia</i> its characterization (UV-Vis spectroscopy and SEM) and evaluation for antimicrobial potential Bhawana SHARMA, Afroz ALAM	11199 PDF
Assessment of analgesic properties of alcohol and aqueous extracts of <i>Opuntia ficus-indica</i> flowers Rajaa LAYACHI, Aziz MOUHADDACH, Lamiae AMALLAH, Mohammed BENAZIZ, Fatima BOUAZZA, Souad BENAICH, Rachida HASSIKOU, Souad SKALLI	11351 PDF
Elemental impact on antibacterial study of hydroalcoholic leaves extract of <i>Belosynapsis vivipara</i> Kuntal DAS, Sravani SINGIRIKONDA	11409 PDF
