Dear Colleagues,

We have the privilege of inviting you to participate at the 30<sup>th</sup> Conference of the RSN to be held between the 28<sup>th</sup> of September and 1<sup>st</sup> of October 2011, at Business Hotel, Targu Mures.

With this conference the Romanian Society of Neurosurgery reaches its 30<sup>th</sup> scientific manifestation all of them aiming through the years the continuous development of this specialty. In this respect all scientific events organized by our society wish to improve research, clinical development, surgical skill's developments, resident and continuous medical education as well.

This conference offers the chance for neurosurgeons and for other subspecialties to present their results, discuss their dilemmas, and share their experience and expertise in a highly educational and scientific manner.

The topics of the conference were chosen in such a manner so they can bring an update to all neurosurgeons from Romanian, improve and develop interdisciplinary approach, generate debates and questions, and yet bring a breeze of novelty in this very challenging field. By introducing the Young neurosurgeons' canner the focus turns to be on young neurosurgeons so a large number of attendances are expected.

Located at the center of the historical region of Transylvania, the venue of the conference, Targu-Mures is a beautiful city located in the Mures River Valley; an important cultural and educational center, being also the host of Peninsula Festival, the biggest Romanian music festival.

The Targu Mures airport, the rich offer of accommodation and leisure activities makes this city perfectly suitable for hosting this anniversary span neurosurgical event.

A rich social program is organized so we can make your stay more pleasant and the invitation to participate more beckoning and enchanting.

Looking forward to welcome you,
