Commemorative Issue: Prof M L Aron

It is a great honour for the SASLHA to dedicate the 1990 issue of "The South African Journal of Communication Disorders" to Professor Aron. This commemorative issue serves as a permanent reminder of her contribution to Speech Pathology and Audiology in the RSA.

Messages of goodwill have been received from all over the world and are included in the journal. A review of Professor Aron's academic and professional contribution to this field and the association is presented by Professor C Penn.

This is only the second commemorative issue of "The South African Journal of Communication Disorders" ever published. The first appeared in 1973 and was dedicated to Professor P de V Pienaar, founder of Speech Pathology and Audiology in South Africa.

The SASLHA extends to Professor Aron its best wishes for happiness and prosperity in future.
